

BERRY IN BLOOM – SPRING 2025

The main aim of Berry in Bloom is to keep Berrynarbor looking clean and attractive with planters having winter or summer bedding plants planted at the appropriate times. In the summer months hanging baskets are provided at various locations around the village.

Since taking on the role of organiser for Berry in Bloom the following has been achieved:

- People who are happy to take responsibility for certain areas in the village:
Julia Fairchild – Manor Hall Area
Karen Loftus – Area around the shop
Tony Summers – Planter at the top end of Barton Lane
Kate Stephenson – Village Square and Church
Philippa Ellam - Planters at the bottom of Claude's Garden
- Hanging Baskets – As per last year, hanging baskets will be purchased from St. John's Garden centre in Barnstaple. The cost of these baskets make up a large portion of our annual spending. This year we have been requested to provide two extra baskets to decorate the pavilion at the Bouledrome.
- Work parties will be set up to deal with the summer bedding planting after Easter and a main litter pick will also be arranged before the summer holidays start.
- All bedding plants, bulbs and compost will be sourced locally
- The wildflower area in the dog walking area has been handed back to the Parish Council
