Clerks Report – 13 October 2026

Toilets & Car Park – The meeting between NDC, Cllr. Stanbury & Cllr. Kitchen took place to discuss the adoption. We are awaiting a response from NDC regarding our request to adopt the freehold for the car park and toilets and to explore the adoption of the shop. We have also asked for clarification about financial arrangements.

Telephone Box – In August the PC approved a quotation for the repairs to the telephone box. The work has not been done and upon request for a date for this the person doing the work has withdrawn his quote stating that he under quoted. The other person who quoted has been approached and has accepted other work as he was unsuccessful and therefore is not in a position to undertake this work.

Water running down Hagginton Hill – this issue has now been reported to the correct area responsible. The culvert has collapsed and the broken pieces have gone down the culvert. It is on the plan to be repaired.

Digital Agar – the AGAR will be digital from 2027 and I am attending some workshops around how to do this.

PC printer & Laptop – both items are working well, the printer needs replacing asap and the laptop can probably wait until the next budget year. I will look at a replacement and bring it to the November meeting. There is £370 still in the budget for this year.

Cluster working – I attended a meeting hosted by ITC regarding cluster working between local councils. The suggestion for more joined up working/advice/resources seem very sensible, e.g. training. I will attend the next meeting.

LGR – there is no formal news on this yet. The elections will take place in May as planned prior to LGR.
